Virtual International Meetings (VIM)

Towards the World Social Forum of Transformative Economies (WSFTE)

The WSFTE

In June 2020, in Barcelona, will be held the World Social Forum of Transformative Economies (WSFTE). A focal point for groups and individuals from all over the world, WSFTE aims to be for all actors involved in economic transformation, both locally and internationally.

The VIM – WSFTE

You are called to action by contributing to the international relations of the WSFTE process. In fact, by June 2020, you are invited to take part to the virtual meetings, putting forward the following objectives:

1. Allow a personalized diffusion of the progress of the WSFTE organization process since Barcelona and the Coordination Committee;

2. Allow the diffusion of information of the international groups mobilizing towards WSFTE and to promote exchanges between Barcelona and these groups;

3. Support the consolidation of the WSFET as an international process.

This initiative is driven by the values of inclusion, openness, transparency, horizontality, self-management, independence and is rooted in the struggle against all kinds of discriminations, and is based on the WSF Charter. It will reflect the collective work of those who will get involved!

Moments of Meetings

The proposed frequency of the VIM is to be quarterly. The first one could take place in the last two weeks of October.
Each of these meetings will be held in three moments, according to the following three languages: French, English and Spanish.

Show your interest:

To take part in this initiative (participate in the meetings or contribute to their organization and progress), you are invited to fill out the attached form:
